

Literacy

This week, we visited the school library and as well as learning about the rules of a library, the children were able to choose some books to read with their grown-ups at home.

Communication and Language

During our All About Me topic and also linked to our RE lesson, the children have been talking about themselves, their differences and similarities. We have read different books on this topic as well as made some lovely face creations.

RE

The children listened to the story of Creation. We talked about how God made each and every one of us.

Understanding the World

The children have been sharing their photo books with us. They have been telling us who is who in their families. This is such a great way for them to settle into Nursery life.

Parent Information

Class Prayer Book

The Prayer Book will be sent home with a child every Friday as well as a picture book explaining what praying is in a fun easy way for children to understand. Please talk to your child about a short prayer that they would like to say/write. Please write the prayer in the book and ask your child to draw/decorate the prayer. The book must come back by the following Wednesday so we can share the prayer together and get the book ready for the next child to take home.
Thank you for your cooperation!

Mathematics

This week, we continued to explore the numbers 1,2,3.

Personal Social Emotional Development

We have continued to practise sitting cross-legged on the carpet at certain times of the day and using our listening ears. We have also been learning to share and take turns by playing different games.

Nursery Autumn Term

19.09.25

Class Book

This week, we read "What We'll Build" by Oliver Jeffers.

Library Books

The children were able to choose a book from our school library on Friday. Please bring back the book every Friday so your child can choose a new one.

Fine Motor Skills

This week, as well as our usual playdough, the children have been working their fine motor skills by putting elastic bands around bottles. It's not as easy as it sounds!

Another idea to do at home is transferring water from one bowl to another by squeezing sponges. This helps to strengthen their palms.

Physical Development

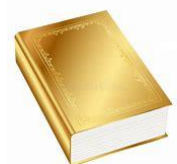

The children have been showing us their balancing skills in the outside area.

Expressive Arts and Design

Linked to our RE lesson, the children created their faces using loose parts.

The Gold Book

Lucy

for always doing her best in all tasks.
