Logo Jumper/Cardigan

Responses/Comments

The cost of adding logo to items is expensive and unnecessary

Having logos on everything increases costs for parents. It's so much cheaper to buy plain jumpers/joggers from supermarkets or m&s/primark - the uniform shops are expensive and their product quality is awful.

This will be much more suited to my family as the gingham dresses come in a more inclusive size range. My daughter is particularly tall and has to size up for modesty

This will help with financial struggles that many families are facing due to the gingham dresses being cheaper and more widely available

Quality of the summer dresses last year from kids connection was poor so happy to change

Thank you for asking for our thoughts and opinions. I have been at the school for four years and this has never been asked. Much appreciated.

The blue gingham/summer dress is not nice. Come up with another suggestion. The white shirt and grey pinafore looks so smart...the summer dresses doesn't

Am happy with the current uniform
